Monday, April 26, 2021

	<p>challenges for a teacher and how parents can help, and what are principal's concerns? Unsure how we evaluate any of this just wondering.</p> <ul style="list-style-type: none"> • G. Borg – we know it's not ideal. Sick Kids encouraged in class learning. Expectations is to meet curriculum. Sticking with the spirit of the curriculum. The community standard is we are learning and learning all day long. Continuity supports learning and we support the community with just that. • S. Pacheco – it is 185 mins (FDK) 225 mins (Primary) of synchronous and asynchronous learning. I have it in. my class, meeting is finished with lesson and children that need more help can stay on and work with teacher. All teachers are following that guide. • Edyta – should we be evaluating what we are doing? • G. Borg – from standards we run with very high standards. Always looking for improvement and work together as a great team for the betterment of students. Self-evaluating is always happening even if we are not in the building. Sharing resources with those teachers that have been online. 	
Graduation	<ul style="list-style-type: none"> • We don't see the possibility of having a grad ceremony for these graduates. • Looking for great ideas • Please help us mark as best we can.
